

Thursday, October 3, 2019 | 1pm – 4:30pm
Metropolitan Ballroom | Golden Valley, MN

Join us for the 4th Annual Reimagine Aging Conference! Members of the community are coming together for the latest information about how older adults can live a high-quality life, independently through the use of accessible technology.

This year will feature a keynote panel discussion on transportation and technology with panelists from Minnesota's Department of Transportation, Department of Human Services, and Mobility4All, as well as 3 breakout sessions to choose from.
