## ASSISTED LIVING: A COMMUNITY CONVERSATION

Get important updates. Join the conversation. Give your input.

In 2019 the Minnesota Legislature passed historic reforms to the regulatory framework and consumer protections within assisted living. We invite you to join a statewide conversation designed for home and community-based providers, counties and discharge planners.

- Understand the regulatory changes occurring over the next several years
- Determine implications for the people you serve
- Provide feedback into rules and the assisted living report card

A panel of experts will be in St. Paul with satellite live-streaming and conversations at locations throughout Minnesota hosted by local facilitators.

**FREE but registration required** at [www.mnlcoa.org/assistedliving](http://www.mnlcoa.org/assistedliving)
